Milo Basketball Team In District Final

Milo Senior Boys' Basketball team became the Western Zone representatives in this district when they defeated Montgomery High School 47-40 at the semi-finals in Bowness on Saturday. Milo teams were accompanied by their coaches, Steve Fluter for the boys and Delbert Olsen for the girls. Two school vans and many private cars transported the teams and the many avid spectators to the games.

Milo cheerleaders Darlene Clements, Nancy Bertrand, Karen Vooyas, Beverley Helevang, Grace McCallum, Dawna Mae McCord, Betty Laid, Judy Umschied and Wendy McMorris did their best to cheer on their teams. These girls have been coached by Miss Gerry Blackford and are to be commended on the fine showing.

Scorers for Milo were—Barry Gore, 16 points; Leroy Peterson, 13; Ronald Fernley, 6; Larry Zaytsoff, 6; Brian Bittorf, 3; Joe Will, 2; David Smith, 1; Randy Robertson and Lyle Winch.

Milo boys will now meet Carleton on Saturday, March 2, in a best two out of three series for the district final. These games will also be held in Bowness.

In the girls' section Milo lost to Cremona by four points. Cremona was then beaten by High River which won the tournament.

Gary Beagle Wins School Square Draw

Winner of the A Event in a modified double knock-out, Gary Beagle, Susie Robertson, Dale Leback and Norma Christensen went on to defeat David Clark, Jeannie Hess, Brian Smith and Lola-Kay Nelson. The latter was the winner of the B Section and also finalist in the A Section.

The final game actually was in favor of David Clark's team most of the way. He was four ahead going into the sixth but he gave Gary three in the sixth and one in the seventh to make it a tie game coming home. The final end saw Dave miss with his final rock to allow Gary to take the honors.

The high school has curled for six full Saturdays now and with Gary Beagle's rink winning the 15 team square draw, play will be interrupted.

The senior basketball team goes to Bowness next Saturday for the zone semi-finals. On March 1, the Grade 12 invitational basketball tournament will be held and on March 9.

The next activity with the rocks and brooms will probably be on March 16-17 when it is hoped to hold the Invitational Bouspiel with 22 rinks entered. There will be three events with a guarantee of three games per rink. There will be prizes in the fours in the first event and twos in the second and third events.

R. J. Monds Dies In Ontario

A well known former Vulcan businessman, Robert John Monds died at Shelburne, Ont., on Wednesday, Feb. 6, 1963, at the age of 86 years.

Mr. Monds was proprietor of a farm implement agency at Vulcan for several years before selling out to the late J. T. Willard in the early 1930's. He re-visited Vulcan frequently after his retirement, renewing his many friendships here.

Services were held at the Shelburne Chapel on Feb. 8, and interment was in the Green Wood Cemetery at Orangeville, Ont., the town of his birth.

Surviving are two half-brothers, William Shaw of Cedar Valley, Ont., and Walter Shaw of Newmarket, Ont.

Alimony is the take from a mistake.

The annual Institute sponsored by the Vulcan Council of Home and School Associations was held in the Carmangay school on Saturday, Feb. 23.

Council president W. Miller of Carmangay was chairman for the day and called on Mrs. Anderson to welcome the members and on Mrs. Sokvitne of Lomond to read the Home & School creed. Invocation was given by Rev. Morrison.

A short business meeting was conducted by Mr. Miller and secretary Mrs. E. Smith. Election of officers resulted in Mrs. L. Williams and Mrs. Joyce House of Arrowwood being elected to the posts of council president and secretary respectively and it is hoped that Mrs. B. McIntyre of Milo will accept the vice-presidency. No definite commitment was received on a nomination for Regional Director but a candidate from Carmangay is giving it consideration.

Following the business meeting, reports of Home & School activities in the locals were presented. An excellent and informative address was given by Frank Burchak, principal of Vulcan Elementary School, on the topic "The exceptional child and his place in the school program." He defined the term "exceptional child" as one who deviates from the normal pattern emotionally, physically, mentally or intellectually.

Legion Ladies Auxiliary Meets

The regular meeting of the Ladies' Auxiliary to the Canadian Legion was held Wednesday, Feb. 20, with 14 members in attendance. Mrs. S. Degenstein, the newly elected president, was in the chair and was assisted in conducting the meeting by secretary, Mrs. A. C. Marsh.

Correspondence was light and dealt with routine matters. The matter of the provincial convention to be held in April was brought up. The selection of a candidate to attend was tabled until the next meeting. New committees were named by the president and reports received by the entertainment committee who reported the bingo games presently being sponsored by the auxiliary have proved quite popular.

At the close of the business session lunch was served and Mrs. J. Sharpe, a guest, very graciously read tea cups. It was decided that members would bring their husbands or a friend to a social evening following the next meeting.

A NATION'S BUILDERS

Not gold, but only men can make a people great and strong—Men who, for truth and honor's sake, Stand fast and suffer long.

Brave men, who work while others sleep, Who dare while others fly—They build a nation's pillars deep And lift them to the sky.

—Ralph Emerson

Scout Week Observed

Scouts, Cubs And Fathers Attend Annual Banquet

Boy Scout Week, which is held each year to commemorate Lord Baden Powell's birthday of Feb. 22, 1857, was observed in Vulcan this year by the holding of the annual Scout and Cub father and son banquet, with about 160 Scouts, Cubs and their fathers attending. Held in the basement of the Lodge Hall, the use of which was donated for the occasion, the banquet was served by members of the Vulcan Lions Club, sponsors of the Scout Association.

Guest speaker for the evening was Joe Balla, executive editor of the Lethbridge Herald and secretary of the Lethbridge Fish & Game Association. Mr. Balla's very interesting talk dealt with the benefits of camping for boys, the value of wildlife to man and some of the ways by which man is destroying nature's balance.

Preceding the speaker, grace was said by Rev. J. D. McClintock, and a welcome to the town of Vulcan was extended by Mayor M. R. Morrison. The Scout and Cub activities of the boys were encouraged by George Richardson, president of the Lions Club; J. V. Christensen, president of the Scout Group Committee; O. M. Roe, president of the Lake McGregor District Council, and Al Clifford of Lomond, Assistant District Commissioner.

Bill Soder proposed a toast to the fathers, to which Carson McKay replied. A toast to the boys was proposed by Don Jantzie and replied to by Randy Wolfe.

The showing of two wildlife films concluded the evening.

L. Kindt Gets Conservative Nomination

Dr. Lawrence E. Kindt, MP, was unanimously nominated as Progressive Conservative candidate for the MacLeod riding in the coming federal election at a nomination meeting held in High River and attended by some 250 supporters from every part of the riding.

Ted Kreitzer of Fort MacLeod was chairman of the meeting and Dr. Kindt's nomination was proposed by Phil Hodnett of Fort MacLeod, who stated that Dr. Kindt had served his constituency and constituents well and had shown extraordinary ability both as an executive and in his capacity for work. Ansley King of High River seconded the nomination.

In expressing his thanks to supporters and workers, L. E. Kindt commented on the importance of contact with constituents to enable a representative to carry out their wishes in the House. He added that the situation in Ottawa since the last election has deprived many members of the opportunity of contacting their electors.

Dr. Kindt, referring to the previous election when opponents of the Progressive Conservatives had decryed the "pegging" of the Canadian dollar and forecast bankruptcy and a rise in the cost of living as a result, said "pegging" had been an action used to counteract a tight money situation that was caused by Wall and Bay street financial markets. It had proved most effective and had stabilized and improved the Canadian position.

Commenting on ARDA, Dr. Kindt said provisions were on the statute books to provide water in abundance for the prairie towns. Completion of ARDA programs requires the co-operation of local, provincial and federal authorities, with the federal government shouldering the lion's share of the cost. Lack of progress on this program he charged against the provincial government who he said were "dragging their heels waiting for an opportune time which will reflect credit on their government."

Commenting on what he termed (Continued on Page 7)

Reports Presented At Annual Town Meeting

Only about a dozen ratepayers, in addition to the members of the town council and some town employees, attended the annual ratepayers meeting of the Town of Vulcan held in the Lodge Hall on Monday evening, Feb. 25. A member of the town's auditing firm was also present.

In his annual report, Mayor M. R. Morrison mentioned the approval by the ratepayers of a by-law which changed the status of the public library to that of a municipal library operated by the town. It will require one mill on the 1963 tax rate to pay for the shelving, furniture and other interior improvements but it is not anticipated that expenditures will be as large in future years.

The Town and Board of Trade made representations for improvements in the highway approach to Vulcan and have been assured by the Department of Highways that this will be done.

An agreement is being finalized with Wilson Homes of Calgary whereby this company will purchase the remaining lots in the subdivision west of the hospital. The company will, at their own expense, install the water and sewer lines to service these lots, gravel all streets and lanes as they are developed and lay all necessary sidewalks. Anticipated residential development in this area will increase the town's assessment and help carry some of the tax burden, Mayor Morrison said.

Faster development of the town can be expected with the completion this year of the Little Bow water project. Twenty-one building permits were issued in 1962 to the value of \$98,750.

Waterworks Councillor S. H. Joiner's report showed total expenditures on water and sewer for capital costs, maintenance and operation of \$56,522. This figure includes debenture payments of \$11,998. Revenue amounted to \$33,254. Costs included the drilling of the new wells last year. About \$10,000 in pumps and casing is recoverable when wells are abandoned.

Finance and Relief Taxable assessments in town amounted to \$2,159,805 last year. Mill rates were 60 on property and 20 on business assessments. Taxes amounted to \$128,461, collections totalled \$127,026 and total arrears are \$29,577.

Net cost to the town for relief and child welfare was \$466.

Public Works

Presented by Councillor Doug Smith, the public works report showed total expenditures of

\$14,680 during the year, including \$2,150 for street oiling and \$1,337 for renovations to the court room and police office.

Parks, Cemetery and Relief Councillor George Richardson's report showed that \$1,142 had been spent on parks during 1962 including \$909 for caretaker wages. Cost of operating the skating rink was \$1,768 and rink revenue was only \$53. Cemetery costs amounted to \$1,057 and cemetery revenue was \$1,060.

Fire and Police Councillor Stan Scales' report showed fire department costs during the year of \$3,710, including \$1,289 for firemen's wages and \$1,486 for purchase of equipment.

Police department costs totalled \$9,548, including \$6,742 for wages and \$1,100 for car allowances. Fines netted the town \$2,254 and rent revenue from the court room and old fire hall brought in \$1,080.

Civil Defence Councillor John Wolfe reported that the Civil Defence Unit was maintaining its strong organization and communication facilities had been improved during the year.

Suggestions Ratepayers present had several suggestions to make to town council, including such matters as better control of juveniles, better care of the cemetery, removal of dead trees from town and private property, spraying of dandelion patches in town and measures that should be taken to have the trailer court property improved.

700-Ft. Test Is Dry Hole

Vulcan's "last chance" deep test well in hopes of striking an ample supply of good water has proved to be a gamble that paid off not in water but in the knowledge that even at a depth of 700 feet, in the most likely location, there is no stream or body of water underlying Vulcan that could be used as a source for the town's water supply.

The hole, drilled to a depth of 700 feet, struck no appreciable volume of water at any depth. The casing is now being salvaged and the hole will be plugged.

Meanwhile, plans for the construction of the Little Bow pipeline, storage tanks, filtering and chlorination plants are well advanced and it is anticipated that tenders for construction will be called early in March.

A special presentation was made at the safety meeting and banquet last Friday of the Two Farm Electric Service Ltd. crews which work south of Calgary. Albert Rasmussen, a crew member, is retiring and is shown above being congratulated by W. A. King, Operating Superintendent of the company, for his years of service. Mr. Cameron's career with Farm Electric Services Ltd., began at Okotoks, where he resides and after years of travel, was back at Okotoks on retirement. From left to right Farm Electric officials are D. Curwen, H. Rasmussen, Construction Supervisors, Albert Cameron, W. Franks, Crew Supervisor, W. A. King, and H. Scout-Guide Church Parade

The annual church parade of Scouts, Guides, Cubs and Brownies was held on Sunday, Feb. 24, when about 150 boys and girls assembled at the Scout Hall and marched to the Vulcan Church of Christ for the service.

Rev. R. J. Pelham, minister, gave a very interesting address based on the Scout Law and Promise.

School Basketball This Weekend

Four girls' and four boys' basketball teams, representing the towns of Stavelly, High River, Barons, Milo and Vulcan, will compete in the annual Grade 12 invitational basketball tournament to be held at Vulcan in the high school auditorium on Saturday, March 2.

Two trophies are up for competition. The first game starts at 10:00 a.m. and the two final games will be played in the evening.

The two field crews and officials of Farm Electric Services Ltd., which work south of Calgary, are pictured above following a banquet at which awards were given for having, for the second consecutive year, a perfect record of no lost

time through accidents. As was the case in 1962, Vulcan was chosen as the location for this event which included a safety program during the morning and afternoon and a social hour, banquet and presentations at the Vulcan Hotel Dining

Room at noon. Each crew member was given a safety button bearing individual years of accident-free service and each group received crew awards. Wally Franks is supervisor of the two crews.

Controlling Water Pollution

One of Canada's biggest capital spending programs ever is just starting to roll — as quietly and unobtrusively as an April rivulet, reports The Financial Post. Experts estimate that more than \$5,000 million will be spent during the next 20 years (that's an average of \$250 million a year) to prevent and control water pollution. (By contrast, the total Canadian share of building the gigantic St. Lawrence River Seaway & Power Project was \$611 million. This averages out to a little more than \$250-million-a-year during the four years of construction.)

After years of luncheon-speech platitudes, Canadians have started to fork out hard cash to save their precious supply of water. The spending process may be painful and slow at first, but the money will flow — for know-how, construction and machinery. The plain facts behind all of this: Canada has plenty of water. Water can neither be created nor destroyed, but it can be polluted. Polluted water is almost as bad as no water at all. The cost of undoing it is staggering. Some \$2,400 million will be spent by Ontario during the next 20 years. All of the provinces are committed to heavy expenditures on water treatment and sewage treatment plants.

GREEN ACRES

Clarence Roth,
District Agriculturalist

Thought about pelleting a high roughage finishing ration for your steers?

Take it from an expert — it doesn't pay in this country! Dr. S. E. Beacom tried it on a test basis at the CDA's experimental farm at Melfort, Sask.

We found that steers made better gains from the pelleted feed than from the same ration ground but not pelleted. Gains from pellets were also greater than from the standard finishing high-concentrate ration.

However, the cost of pelleting proved prohibitive — \$12 a ton compared with \$2 to \$4 a ton (over grinding and mixing charges) in the United States.

Dr. Beacom conducted a 74-day test of the three rations with three groups of steers. At slaughter, the pellet-fed group brought about \$3 per head more than the ground ration group and about \$12 per head more than the standard finishing ration group.

But the total cost of processing the pelleted ration was \$19.50 per ton, more than twice that of processing the ground ration and more than four times that of the standard finishing ration.

Dr. Beacom estimated that a lowering of pelleted costs could make this type of feeding profitable.

A.A.R.N. Holds Turkey Supper

The Vulcan Chapter of the A.A.R.N. commenced this year's activities with a turkey supper on Feb. 6 in the Anglican Church basement.

After supper a short business meeting was held. Reports were given on the success of the annual dance. Donations were made to several worthy causes.

The program for the following year will be on the different aspects of obstetrics. Miss Locke thanked all those who assisted in the Sabin-polio campaign.

Following adjournment a social evening was held with more refreshments being served by hostesses M. Graham, P. Todd, G. Montgomery, D. Roth and V. Mitchell.

CANWEST
REGISTERED OR CERTIFIED
SEEDS
FOR HIGHER CROP PROFITS

- **SEED, THE BASIC FACTOR**
The seed you sow is the most important factor in your whole crop program. The use of Registered or Certified seed is your best assurance of highest returns — a clean crop of good quality.
- **HIGH QUALITY STANDARDS**
Seed sold under the name Registered or Certified must meet the grade standards required by the Canada Seeds Act. This means it has assured germination and is free of weed seeds. Even Commercial grade seed must meet exacting standards.
- **NET PROFIT ADVANTAGE**
Prove it for yourself. Compare the difference and probable returns from a crop grown from Registered, Certified or Commercial grade seed and a crop grown from ordinary seed. Then take a look at the small difference in seed cost. You will find high quality seed will bring you a much better return.
